This project focuses on the implementation of an Enterprise Resource Planning (ERP) system using Odoo 17 for PT GlowChain Logistic Indonesia, a B2B cosmetic supply chain and distribution company. The ERP system integrates multiple business functions to improve operational efficiency and streamline end-to-end business processes.

2. Business Process Overview

The business process is designed to integrate customer acquisition, procurement, inventory management, logistics operations, and financial transactions into a single ERP ecosystem.

3. Human Resources & Fleet Management

Purpose

Manage employee information, payroll administration, and company fleet operations.

Key Features

- Employee profile management.
- Payroll administration.
- Company fleet management.
